## AMENDMENTS TO THE CLAIMS

The following listing of claims will replace all prior versions and listings of claims in the application.

## **Listing Of Claims**

- 1-22. (Cancelled).
- 23. (New) A recombinant scFv antibody capable of binding to a sporozoite surface antigen from Eimeria acervulina, which comprises a heavy chain variable region comprising the amino acid sequence of SEQ ID NO:18 and a light chain variable region comprising the amino acid sequence of SEQ ID NO:26, wherein the recombinant scFv antibody comprises a linker between the heavy chain variable region and the light chain variable region.
- 24. (New) An scFv antibody capable of binding to a sporozoite surface antigen from Eimeria acervulina, which comprises a heavy chain variable region comprising the amino acid sequence of SEQ ID NO:18 and a light chain variable region comprising the amino acid sequence of SEQ ID NO:26.
- 25. (New) A recombinant scFv antibody capable of binding to a sporozoite 12kd surface antigen from Eimeria acervulina, which comprises a heavy chain variable region comprising the amino acid sequence of SEQ ID NO:18 and a light chain variable region comprising the amino acid sequence of SEQ ID NO:26, wherein the recombinant scFv antibody comprises a linker between the heavy chain variable region and the light chain variable region.

26. (New) An scFv antibody capable of binding to a sporozoite 12kD surface antigen from Eimeria acervulina, which comprises a heavy chain variable region comprising the amino acid sequence of SEQ ID NO:18 and a light chain variable region comprising the amino acid sequence of SEQ ID NO:26.
